Endoset Flow110

- Support Adult and Pediatric Modes
- High Flow Bariatric Versatile Insufflator
- Automatic Gas Injection
- Pressure High flow mode: 1-30 mmHg, Pediatric Mode: 1-15 mmHg
- High Sensitivity and Accuracy Especially in Pediatric for Measuring Gas Flow with Precision of 0.1 (L/min).
- Equipped with an Internal Pre-heating System
- Intelligent Algorithm ensures precise, optimized and reliable performance
- High Safety Mechanism (Mechanical, Electrical and Software Algorithm)
- Display of Gas Consumption
- User-Friendly Interface
- Duplicate Input Setting Touch Screen Display and Keypad
- Bottle/Central Gas Source (Medical CO2)
- Maximum Gas Inlet 100 bar
